

My Memories

Based on the **Rabbit, Soldier, Angel, Thief** by *Katrina Nannestad*

Sasha collects many items that provoke memories of his time during the war. Some lead to good memories and others to upsetting ones.

Many people collect items that help them to remember different times in their lives, holidays, birthdays and other celebrations to name a few.

What items do you have that remind you of things that have happened to you? They might be photos, souvenirs, toys or games.

Draw or write those items in the box below and write what they remind you of, e.g., it could be a shell that reminds you of a beach holiday with your family, or a toy you had as a baby.
